**Media release for immediate use**

***Rimage service, supply and support now available in New Zealand***

Rimage has recently appointed Computergate as the New Zealand Distributor for all Products, Consumables & Service.

Rimage are the industry leader that defines the gold standard for on-demand digital publishing solutions, including digital asset management, disc publishing and printing. Rimage workflow-integrated digital publishing systems produce CD, DVD, and Blu-ray Discs with customized content and durable colour or monochrome labels.

Gavin Benson from Computergate says “The Rimage products meet a wide range of disc production requirements and now they are fully supported in New Zealand and consumables are readily available”.

All service and supply for any Rimage products can be obtained by contacting Computergate on 0800-866-077 who will arrange one of their technical specialists to help.
