

COMPUTERGATE PARTNERS WITH STOTREC TO STRENGTHEN THEIR GLOBAL REACH

16/05/2022

Computergate & StorTrec have partnered to become a global provider of IT services.

A teaming agreement between both organisations is key to the success of the strategy to strengthen its service and maintenance offerings and expand its service portfolio globally.

Partnering together will allow organic expansion and the ability to support cover additional geographies to deliver professional services to all Vendors, System Integrators, Distributors and Service Partners.

Of the partnership Computergate CEO, Mario Greco stated “The alignment with StorTrec, who are like-minded and recognise that service quality, is essential to the growth in our Partner & Vendor business.”

The partnership with StorTrec further will play a key role in strengthening its service offerings and expanding its capabilities at a global level.

“I am excited that Computergate is able to offer extended reach and additional service capabilities by partnering with StorTrec. Together, all areas of business will be amplified and open up opportunities that will exceed the expectations of our customers”. Mario Greco, Computergate CEO explains.
