

Computergate 20th Birthday Message
1st September 2022

Wow 20 Years, what a journey, 2002 to 2022.

The knowledge gained and the growth in the business over the years has been very gratifying. The people and places that we have met to build our service network and the infrastructure to make this work has been mind-blowing.

Our history shows we have been on a positive trajectory through acquisitions and strategies that has built strong foundations for the future.

I have always said that 'It is the people that make the business' and 'The company is only as good as the people that work in it'.

Our culture has spawned from how we interact with each other and the ability to bring the needs of the client into effect.

Even though our product and services have developed and matured along, we have maintained long-term clients who have been along the journey with us.

A big thank you to all of my Staff, Service Agents & Partners, Vendors, Distributors, Resellers, Customers, Direct & Indirect, for being on this journey with us these past 20 years. I look forward to the big next step together to take the company beyond our expectations into the future.

- Mario Greco, Computergate CEO
