

Point of Sale & IOT

20 Years of Experience Means First Class Service

POS Maintenance

Computergate provides Point of Sale and IT Maintenance services, hardware and software implementation, and staff training across Australia, New Zealand and Asia.

From our years of experience with Point of Sale (POS) Systems and custom hardware devices, we have developed expertise in working in non-it type environments, such as retail stores, hotels, food & beverage, warehousing, exceeding the traditional hardware maintenance service of simply "swapping out" faulty hardware.

Trust In Our Expertise

Our Service Delivery team are expertly trained and will be able to implement your Point of Sale system to the exact specifications of your business and will be there for any maintenance issues you may have to give you piece of mind.
